DIARY NOTES

ADD/A (Colonel White)

14 April 1952

1. Attended Deputy Directors' Meeting. Pertinent items of interest to the DD/A are as follows:

- a. [REDACTED] on the National Estimates Board. Apparently he will be coming on duty within the next few days.
 - b. Mr. Dulles stated that he was to have another meeting with Mr. Staats, Bureau of the Budget, whereupon General Smith instructed him to try to persuade the Bureau of the Budget that Messrs. Schaub and Macy could continue to do our work and that we hoped that such an arrangement could be made.
 - c. Mr. Dulles asked for General Smith's reaction to making Matt Baird Acting Assistant Director (Personnel). General Smith was emphatic that he did not agree to this arrangement as a permanent measure. He asked me for my opinion and I told him that we had carefully considered the situation and thought that Colonel Baird's appointment was the wisest thing we could do at this time and under the circumstances with which we are faced. He agreed that it was all right but re-emphasized that it was on a temporary basis and that he wanted to make sure that Colonel Baird understood this. General Smith instructed me to appoint Colonel Baird "Acting AD/P in addition to his other duties."
- Following my telephone conversation with Mr. Wolf I concluded these arrangements with Colonel Baird [REDACTED]
- d. General Smith expressed considerable dissatisfaction at the fact that a reply to General Ridgeway's letter, which he received prior to his trip, had not yet been prepared.

7. I talked with Jim Garrison and [REDACTED] about the shipping problem, i.e., whether shipping functions should be transferred from Administrative Service to Procurement and Supply. Told them that this was a controversial subject and that I was not prepared to make a recommendation that it be transferred at this time. I emphasized that I thought even a bad system could be made to work if the personnel concerned put themselves to the task and that I fully expected both of them to insure that our present system did function with maximum efficiency pending final determination as to whether the functions should be transferred. I will discuss my ideas on this with Mr. Wolf separately.
